VOTE PLACES FOR DEC. 15

VOLUME 62

BALLOT GIVEN Just what is meant by "eligible voter" in the upcoming referendum on 1960 crop upland cotton marketing quotas was explained today by Lester Gunter, chairman, Coffee County Agricultural Stabilization and Conservation Committee. "Generally speaking, anyone who engaged in the production of upland cotten in 1959 is eligible to vote in the December 15 referendum" the Chairman declared. "This would include all persons - whether owneroperator, cash tenant, share

tenant, or sharecropper, who had an interest in the 1959 "It would also include a farmer whose cotton allotment acreage was included in the Soil Bank's 1959 Conservation Reserve program, or a person whose 1959 farm cotton allotment was regarded as planted under program provisions. Any questions about eligibi ity to vote in the December 1 referendum on 1960 crop up land marketing quotas should be referred to the local County ASC Office.

A Newspaper Advertises Its Community

A community realizes the constant benefits from its newspaper. These benefits are emphasized in a special edition devoted to one theme. An instance, is the wide publicity that came to Elba from The Elba Clipper Third Annual Fall Festival edition which was widely circulated and which received congratulatory letters from throughout the Choctawhatchee - Pea river basin.

The issue was quoted in The Birmingham News, with a circulation of 188,151, in a column by Robert W. Kincey. Under a heading "Elba Finds Reason For Real Optimism" Bob Kincey said: "Under the title of "REALISTIC OPTI-MISM", The Elba Clipper says editorially that never before have there been so many reasons for confidence in the future of Elba, Coffee County and Southeast Alabama. Increasing employment and numerous public and private improvements in that area are listed"

is the size of a Government Post Card, by actual measurement. To mail this card to 1,000 families would cost \$30.00 for the card and postage alone. To print a message on the back would cost, on the average, \$7.50 per thousand. Addressing would cost another \$5.00 per thousand.

That's a total of \$42.50 to send a postcard advertisement to a thousand families.

Yet this space in The Elba Clipper costs a regular advertiser only \$6.30. It reaches almost twice as many families. That advertiser's money helps The Elba Clipper to serve a subscriber at only a fraction of the cost of a subscription if the newspaper had no advertising.

To sum up: The advertisement reaches more people at one-seventh the cost and the advertiser serves every subscriber because he enables The Elba Clipper to supply the news at less cost.

t is now possible to get blueprints and specifications approved for new FHA construction, and actual work started, in one day's time. That is because the Certified Agency Plan has been reopened in Coffee County through efforts of Senator John Sparkman. Also, it means there will be no necessary delays in construction while inspections are made. Previous to now, as much as six weeks have been required to send blueprints and

specifications to Birmingham for approval.
